

# Computing Science

Robert Gordon University

## Content

The MSci Computing Science course has been designed to create modern software developers who can use their knowledge and skills to create solutions to real-world problems. This 5-year course results in a Master's level qualification with a key feature being the year-long industrial, research or study abroad placement.

You will learn to develop software across a number of modern platforms, including desktop, mobile, web and embedded systems, and gain skills in a variety of modern programming languages. You will be able to adapt to the changes and challenges that working with cutting-edge technology brings, and design and test secure software systems, all in our custom-built teaching labs. This course provides you the confidence and creative and adaptable skillset that the computing industry needs.

## Start Date

September

## Qualification

Degree

## Study Method

Full time

## Award Title

MSci

## UCAS Code

G402

## Course Length

5 years

## Department

School of Computing, Engineering and Technology

## Entry Requirements

2026 entry requirements

Standard entry: 4 Highers at BBBB plus English and Maths at National 5 (if not held at Higher).

Widening access entry: 4 Highers at BCCC plus English and Maths at National 5 (if not held at Higher).

## SCQF Level

11
