

## Computing Science

Robert Gordon University

### Content

The MSci Computing Science course has been designed to create modern software developers who can use their knowledge and skills to create solutions to real-world problems. This 5-year course results in a Master's level qualification with a key feature being the year-long industrial, research or study abroad placement.

You will learn to develop software across a number of modern platforms, including desktop, mobile, web and embedded systems, and gain skills in a variety of modern programming languages. You will be able to adapt to the changes and challenges that working with cutting-edge technology brings, and design and test secure software systems, all in our custom-built teaching labs. This course provides you the confidence and creative and adaptable skillset that the computing industry needs.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MSci

### UCAS Code

G402

### Course Length

5 years

### Department

School of Computing, Engineering and Technology

### Entry Requirements

2027 entry requirements

Standard entry: 4 Highers at BBBB plus English and Maths at National 5 (if not held at Higher).

Widening access entry: 4 Highers at BCCC plus English and Maths at National 5 (if not held at Higher).

## SCQF Level

11
