### Content

This multidisciplinary honours degree offers the unique opportunity to study the three most influential realities impacting people's lives and is a comprehensive programme aimed at developing the leaders of the future.

**Economics:** You will examine how economic agents (individuals, households, and businesses) and markets behave and interact, and are influenced by aspects such as inflation, economic growth and unemployment, and monetary and fiscal policy.

**Politics:** You will examine the different ways in which politics shapes our lives and is organised differently around the world. The programme looks at various forms of governance from clans, upwards to modern local governments, institutions, sovereign states and finally to international level.

**Philosophy:** Philosophy seeks to understand, and critically to question, ideas concerning the nature of reality, value and experience that play a pervasive role in understanding the world and ourselves. Problematic concepts, such as existence, reason and truth, occur in every sphere of human enquiry. Others belong to particular areas of thought and practice, such as art and politics. In this programme, you will explore these ideas and concepts and how they influence society.

### Start Date

September

### Qualification

Degree

### Study Method

Online learning  
 Part time (day)

## Award Title

BA Hons

## Course Length

8 years
