

Sound Production (Level 6)

North East Scotland College

Venues

Aberdeen City Campus

Content

Embarking on a sound production course is an exciting journey into the world of music and audio. It's a chance to get hands-on experience with the technology that shapes the sounds we hear in music. As learners understand the audio industry's infrastructure, they will discover the processes behind recording, mixing, and mastering.

What you will experience:

Recording and mixing; Using software and hardware; Synthesis and sampling; Sound design; DJing; Critical listening skills.
