

## Forensic Science and Biotechnology (Level 6)

North East Scotland College

### Venues

Aberdeen City Campus

### Content

This exciting course will give you an understanding of cutting edge applications of forensic science and biotechnology.

Forensic science is a crucial part of crime scene investigation, using scientific techniques to analyse and piece together the evidence to be presented during a court case and help solve the crime.

Biotechnology explores how some of these techniques, and others, can be used to harness biological processes for use in industry. This includes interesting topics like vaccine production, DNA analysis and genetic engineering.

### Start Date

August

### Qualification

Other

### Study Method

Full time

### Course Length

1 year

### Department

Science

### Entry Requirements

Maths and two science subjects at National 5; or NC Applied Science (Level 5)

### SCQF Level

6

### SCQF Points

«SCQFPoints»

## Progression Routes

Relevant HNC

## Combination Courses

«htmlCombinationCourse»
