Content

BSc (Hons) Bioscience is a new degree offering skills and practical experience in subjects including biology, biochemistry, genomics, laboratory practice and instrumentation, and focuses on recent advances in a range of scientific fields.

You will learn a range of laboratory techniques used in disciplines such as microbiology, biochemistry, chemistry for biology, molecular biology and genomics. On completion of the degree you will have gained experience and skills required for employment in industries such as biotechnology, food and drink, microbiology, environmental protection and scientific research.
