

## Politics, Philosophy and Economics

University of Edinburgh

### Venues

Central Campus

### Content

Politics, philosophy and economics (PPE) examines different interdisciplinary perspectives on many of the pressing issues of the modern world. It will equip you with the key skills to engage with the political, philosophical and economic debates of the day.

You will acquire the necessary frameworks for thinking about political and philosophical issues, combined with the quantitative skills for answering political and economic questions.

Philosophy helps you develop analytical rigour and logical reasoning, and addresses questions regarding how we acquire knowledge and make ethical judgements.

Politics is concerned with the choices that political systems must regularly make, to explain the processes that maintain or change those systems, and to examine the concepts and values used in political analysis.

Economics studies the allocation of resources and decision-making by consumers, firms and governments, and is increasingly central to governmental policy making, the conduct of businesses, and the enormous economic transformations throughout the world.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MA Hons

### UCAS Code

L251

### Course Length

4 years
