

Cyber Security

Dundee and Angus College

Venues

Gardyne Campus

Content

Cyber Security is an ongoing key concern globally in terms of protecting business systems and data from cyber threats and attacks. The HND Cyber Security continues from the HNC Cyber Security Course and will provide you with the opportunity to broaden your skills in Cyber Security related disciplines to help prepare you for progression on to University or related work within the Cyber Security Industry. You will gain further expertise in areas related to Cyber Resilience, Digital Forensics, System Security and Monitoring, and Network Security and Monitoring.
