

Mechanical Engineering

Glasgow Caledonian University

Content

If you enjoy being hands-on with technology and creating solutions to complex problems consider mechanical engineering. Learn to design and manufacture mechanical products at degree level and excel in the field of mechanical engineering.

Engineers are involved in a number of design and development activities and this course makes you a well-rounded engineer able to exercise leadership, initiative, personal responsibility and decision-making in complex and unpredictable situations. This course offers the option to specialise in Systems or Design.
