

Business Management and Spanish

Open University in Scotland

Content

This degree allows you to combine business management with Spanish. You'll divide your study equally between both subjects. You'll explore how businesses develop strategies, handle risk and take decisions. You'll see what's involved in functions such as marketing, accounting and finance. Combining this with the study of Spanish opens doors to Spanish-speaking cultures and communities, and can provide a key to the global workplace. There's also an opportunity to spend a week in Spain to help you develop proficiency and understanding in Spanish.

Start Date

October, February
