

Computing and IT and Design

Open University in Scotland

Content

This is one of several subject combinations available in the Certificate of Higher Education in Computing & IT and a second subject (T13) – you'll divide your time equally between the two subjects. You will be introduced to the processes of design and innovation, with particular regard to digital technology. You will also study the profound technological, economic, political and ethical changes that are driven by those digital technologies. On completion of this certificate, you will have the basis for further study to develop the skills to contribute to the design of the digital electronic devices of the future.

Start Date

October, February, April

Qualification

CertHE

Study Method

Distance and Flexible learning

Course Length

Flexible

Faculty

General

Department

Design

Entry Requirements

There are no formal entry requirements. Computer and internet access necessary.
