Biology

Open University in Scotland

Content

If you're fascinated by life in all its forms, this degree takes you from the microscopic to the global scale. You'll explore the building blocks of life, the physiology and behaviour of organisms, and the ecosystems that sustain them. Evolution, diversity, and survival are key themes as you study everything from cells and genes to whole populations and habitats. With hands-on investigations and up-to-date scientific insight, you'll develop a rounded understanding of biology and the skills to apply it in research, conservation, education or healthcare.

The course has interim accreditation from the Royal Society of Biology.

Start Date

October, February

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Faculty

General

Department

Science

Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
