

Biology

Open University in Scotland

Content

This biology degree is for those inspired by the natural world. Studying with the OU will enable you to gain a deeper understanding of the foundations of life and biological processes involved. Explore diverse subject areas from the cellular and molecular levels to whole organism survival. Biology encompasses all living species, explaining their diversity via evolutionary origins. It defines their anatomy and structure, describes their physiology and behaviour, and provides scientific rationales for their habitat requirements and ecosystem interactions.

The course has interim accreditation from the Royal Society of Biology.

Start Date

October, February

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Course Length

Flexible

Faculty

General

Department

Science

Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
