Content

This 5 year course is professionally accredited by the ARB/RIBA.

The first three years (part 1) are designed to build basic knowledge and skills in Design, Communications, Architectural History/Theory and Sustainable Technology. Each year culminates in a major integrated design project which draws these parallel threads together.

The final two years (part 2) offer more opportunities to choose a programme of study which suits your emerging interests as a maturing designer. At level 4 you will choose an integrated design project from a series of offered options, and also select a 'design research' theme which leads into final year unit studios. These studios give you the opportunity to develop individual thesis projects which specialise in the aspects of architecture that most interest you.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MArch

UCAS Code

K100

Course Length

5 years

Faculty

Duncan of Jordanstone College of Art & Design

Department

Architecture and Urban Planning
