

Urban Planning

University of Dundee

Venues

City Campus

Content

This degree is a four-year programme to honours standard and covers all aspects of theory and practice of town planning which builds upon the recent professional and practical experience of staff and the recent research record of the School. During the first two years we lay the foundation of knowledge while in the third and fourth years we help you develop your understanding in depth as well as giving you the opportunity to select specialist subjects to study. You will be free to select your option subjects from two areas of specialised study:
