

Environmental Science and Geography

University of Dundee

Venues

City Campus

Content

Studying Environmental Science at Dundee provides you with the opportunity to explore the problems associated with the interaction of humans and the natural environment, focusing on topical and relevant issues such as climate change, pollution of land and water and the management of natural resources.

You will benefit from exposure to methods, facilities and research agendas that span the environment – from life sciences including chemistry and biology, through hydrology, remote sensing, geology, geomorphology, oceanography and physics, to environmental planning and management. This provides a firm and rigorous foundation for your career in the environment.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

LF77

Course Length

4 years

Department

Environment and Geography
