

## Civil Engineering

UHI Inverness

### Venues

Inverness Campus

### Content

Civil Engineers are responsible for the design and implementation of a wide range of infrastructure, energy and construction projects. The focus in these varies, from consultation, design and advisory, to site-based work. The HNC Civil Engineering provides the relevant qualification for a Civil Engineering Technician.

You will benefit from strong industry links and professional practice, giving you the skills required to improve your employment opportunities in this key industry sector. The programme has the support of local employers such as Pat Munro, Mott MacDonald and The Highland Council. It is currently delivered for students employed in the sector as trainee Civil Engineering Technicians.

### Start Date

September

### Qualification

HNC

### Study Method

Full time
