

Web Development (including Digital Design and Development)

North East Scotland College

Venues

Aberdeen City Campus

Content

This very practical course will build on your design and technical abilities, and ensure you have the skills and knowledge to effectively implement your ideas and designs. These skills can be used to develop skills in Web Development. You will be using the latest in industry software within Adobe's Creative Cloud.

You will work on real projects with real clients, allowing you to develop an in-depth and accurate understanding of professional standards and what to expect when working in a web related role.
