Content

Advanced ECDL Spreadsheets (Module AM4) is a high-level certification programme which presents candidates with the opportunity to bring their spreadsheet skills to an expert level. Completion of this module will enable candidates to master the more advanced functions of spreadsheet applications, enabling them to produce more sophisticated reports, and to perform complex mathematical and statistical calculations, thus saving time and improving productivity in the completion of tasks. It has been specifically designed to:

Allow users to become more confident, efficient and effective in using a spreadsheet application; Proves mastery of the application; Enable users to produce better reports with deeper data analysis; Improves user's productivity
