

## Photography Digital Imaging

West College Scotland

### Venues

Greenock (Finnart Street) Campus

### Content

This 10 week course in digital photography is suitable for anyone who has an interest in pursuing a career in photography and digital processing. It is suited for a variety of individuals, whether you are looking to turn your hobby into your career, or you are currently running a business that has a need for these skills. The course covers the basic photographic techniques and provides the perfect environment and encouragement to aid your photographic skills development.

You will learn to leave the automatic setting of your camera behind, and take control using the basic manual operations such as:

Exposure Time, Aperture, ISO, White balance, Focal Length,

You will learn how to:

Make long exposures, capture light trails from traffic, paint with light, compose your images for maximum effect.

Thursday - 6.30pm - 9.00pm

### Start Date

March

### Qualification

Other
