

Music

Open University in Scotland

Content

This fascinating introduction to the methods and materials used for music research will suit professionals working in a wide range of music-related settings, and is also applicable if you have a leisure interest in music. Your studies will be based in the digital humanities using creative technologies to develop your research skills and critically analyse a variety of musical sources.

You'll encounter a number of musical topics, themes and repertoires from different periods and styles – as you engage with Western, non-Western and popular music – and will be able to tailor your studies according to your musical interests.

Start Date

Contact institution

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning

Award Title

MA

Course Length

2 years

Faculty

General

Department

Arts and Humanities
