

Enhanced Clinical Practice (PgDip)

Open University in Scotland

Content

This qualification prepares registered health professionals for enhanced clinical practice roles. You'll develop your knowledge and critical understanding of enhanced clinical practice, leadership, research and education, and the skills that enable you to act with a high level of autonomy. You will enhance your skills in holistic and systematic assessment, complex decision making, and provision of high-quality evidence-based interventions for patients, clients and their families.

The diploma also incorporates a Non-Medical Prescribing module which, upon successful completion, will enable you to gain regulatory recognition as a non-medical prescriber within your scope of practice.

Start Date

November, February

Qualification

Postgraduate Diploma

Study Method

Distance and Flexible learning

Course Length

18 months - 4 years

Faculty
