

Medical Devices Engineering

University of Glasgow

Venues

Gilmorehill Campus

Content

The MSc in Medical Devices Engineering is aimed at students who have undergraduate degrees in various branches of engineering and wish to apply their background knowledge and skills to the development of medical devices.

The programme is interdisciplinary bringing in and developing both engineering knowledge and the biomedical applications of this knowledge.

The programme will equip graduates for immediate employment within the biomedical engineering sector, both in the UK and internationally. Device regulatory aspects and biomedical ethics will be taught as underpinnings to the engineering and biomedical elements.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

College of Medical, Veterinary and Life Sciences

Department

Medicine, Dentistry and Nursing

Entry Requirements

A 2.1 equivalent degree in any Engineering Discipline or Physical Sciences/Maths degree that contains the core modules: maths. Applicants with a high 2.2 equivalent degree classification but 2:1 standard marks in core modules may be considered for entry.

SCQF Level

11

Address

Glasgow
