

Computer Science

University of St Andrews

Content

The MSc in Computer Science offers students with a strong undergraduate background in Computer Science an opportunity to follow their interests in studying the subject at an advanced, research-led level. Students have the flexibility to choose from a wide range of modules in advanced topics including artificial intelligence, human computer interaction, networks and distributed systems, and software engineering.

Compulsory Modules:

Object-Oriented Modelling, Design and Programming: introduces and reinforces object-oriented modelling, design and implementation to provide a common basis of skills, allowing students to complete programming assignments within other MSc modules.

You can exit early with the PgDip Computer Science.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

1 year

Faculty

Faculty of Science

Department

Computer Science

Entry Requirements

2:1 Honours degree in Computer Science, or strongly related discipline. Applicants to this programme are expected to be

competent programmers with prior practical experience in a programming language such as Java, C, Python, C++ or JavaScript.

SCQF Level

11
