Jewellery Arts and Technology

City of Glasgow College

Venues

City Campus

Content

This course will teach you exciting and comprehensive range of skills with a design-led focus. The course could provide you with a variety of work suitable for a portfolio with an emphasis on Jewellery Design. Alongside making there will be drawing, design and exploring your creative process with a variety of materials.

The college focusses on marrying new technology with traditional techniques – pushing boundaries of material exploration, and developing skills in emerging technologies with access to Laser cutting and 3D Printing. Alongside making there will be drawing, design and exploring your creative process with a variety of materials developing innovative design skills.

They work closely with industry partners to deliver live projects and briefs and compete successfully in National competitions. Award-winning and leading the way in ethical practices and sustainability in industry, this course will enable you to leave a responsible maker.
