Healthcare Practice

Dundee and Angus College

Venues

Gardyne Campus

Content

This demanding course is designed to provide practical skills and theoretical knowledge for those wishing to enter healthcare professions covering skills required to meet the professional standards demanded of the NHS workforce.

Subjects include: Safe Working Practice, Therapeutic Relationships, Sociology and Anatomy and Physiology.

A work placement is required; therefore, there is a need to have a good level of physical and emotional well-being. An occupational health assessment is carried out by the NHS to assess fitness to practice.

Please note: some units may contain content that could be triggering, if in doubt please contact heretohelp@dundeeandangus.ac.uk and they will direct you to the course leader.
