

Healthcare Practice

Dundee and Angus College

Venues

Off Campus

Content

This course aims to develop knowledge of providing patient care. Learners will study the professional standards and the psychological and sociological aspects of care. They will gain a good understanding of the anatomy and physiology of the human body and both mental and physical disease processes. A work placement will be undertaken.

Part-time opportunity: For those already employed in a health or social care setting, there may be an opportunity to undertake this programme part-time in the evening with your employer's endorsement.

Start Date

August

Qualification

HNC

Study Method

Part time (evening)
Part time (weekend)

Course Length

1 year

Department

Health and Social Care
