

Pharmacy Services Development and Management

Edinburgh College

Venues

Granton Campus

Content

If you're a pharmacy technician and want to take on a senior or managerial technician role then this course will provide you with the skills and knowledge you need. A suggested two years post-registration experience is desirable but not mandatory. This course is delivered as a two-year day release course and you must be employed in the pharmaceutical profession.

The course will ensure you're in a fantastic position to pursue further studies with several stand-alone HN units offered by the College which can contribute to CPD for pharmacy technicians. You'll also be well prepared for the Professional Development Award (PDA) in Review and Supply of an Individuals Medicine.

You'll be supported to develop communication and managerial skills; Increase your subject expertise and extend your personal intellectual and social development; A project report and graded unit completed in the workplace will allow you to demonstrate the practical skills you've learnt on the job.

Start Date

August
