

Electrical and Electronic Engineering (in conjunction with Forth Valley College)

Heriot-Watt University

Venues

Edinburgh Campus

Content

The electrical engineering degrees provide a broad-based education in electrical and electronic engineering. During the first three years, students study topics from low current electronics to high power systems. In Year 4 you can choose from a set of specialist courses to complement your thesis topic selection.

Years 1 and 2: Forth Valley College

The course is delivered for the first two years at Forth Valley College, where you will study the fundamental principles of electrical engineering technologies. In the second semester of Year 2, Forth Valley College students participate in a design project at Heriot-Watt.

Years 3 to 5: Heriot-Watt University

Forth Valley College students will transfer into the third year of the Heriot-Watt BEng/MEng Electrical Engineering programme and follow its programme structure for the remainder of the degree.

During the first three years students study topics from low current electronics to high power systems. In Year 4 you can choose from a set of specialist courses to complement your thesis topic selection.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MEng

UCAS Code

H6AS

Course Length

5 years

Faculty

School of Engineering and Physical Sciences

Department

Electrical, Electronic and Computer Engineering

Entry Requirements

2023 entry requirements:

3 Highers at BBC including Maths and a science or technological subject or Foundation Apprenticeship

Engineering + Higher Maths and Physics at BB or BC or NC Electrical Engineering (Level 6). Interview and pre-entry test.

SCQF Level

11
