Animal Behaviour and Welfare (3rd year entry)

University of Aberdeen

Venues

Foresterhill Campus

Content

This is an exciting opportunity for students with an HND in Animal Care to enter year 3 of Scotland's only BSc programme in Animal Behaviour and Welfare. The BSc Animal Behaviour and Welfare prepares students for graduate careers by providing an exciting opportunity to explore the science that underpins our understanding of animal behaviour and welfare.

Upon completion of the programme, you will have:
Developed a thorough knowledge and understanding of core and critical concepts in animal behaviour and welfare.

Become skilled in collecting, manipulating and analysing data that is relevant to research questions in animal behaviour and welfare.

Learned how to plan, execute and present an independent piece of work.

Developed the skills and confidence to construct a reasoned argument to support your position on ethical issues relevant to animal welfare.

Practised communication of science with both peers and non-scientists.

Start Date

September

Qualification

Degree

Study Method

Full time
