Contemporary Art Practice (2nd year entry)

Glasgow Clyde College

Venues

Anniesland Campus

Content

HND in Contemporary Art Practice Year 2 is primarily focused on identifying and developing your own studio practice in preparation for 2nd or 3rd year entry to art school. The course is delivered through three main projects.

Term 1 is designed to enhance your skills and support you in the development of your ideas, leading to strengthen and develop your own art practice. This is delivered in part through specialist workshops where the focus will challenge and extend your art practice.

Term 2 will give you more autonomy and decision making with your work and the direction you want to travel in. You will be able to work in any of the specialist areas the department can offer you including screen printing, 3d work and 2d art practice. You will also undertake a professional exhibition of your work which will be in a public space.

Term 3 will focus on professional practice, exhibition, and the final graded unit. This is a self-driven project supported through mentoring sessions and will come to fruition in a final exhibition.

The College has facilities which will allow you to work in any of the following areas:

3D Art Practice: sculpture, ceramic, casting, installation and audio visual
2D Art Practice: drawing, painting, printmaking - screen printing/ etching/ relief, digital and mixed media.

Theoretical study is integrated throughout the year and will be as far as possible linked with your own art practice. Critiques and presentations will also take place through the year alongside gallery and studio visits. The college will also support you in your application to art school.

Start Date

August
