

Carbon Finance

University of Edinburgh

Venues

Central Campus

Content

The challenge of responding and adapting to climate change will drive trillions of dollars of new investment over the coming decades, with major changes required across the economy, in energy production and consumption, industry, buildings, transport, infrastructure, forests and agriculture. Delivering this investment will require greatly enhanced capacity in all aspects of carbon finance.

This programme is the world's first MSc in Carbon Finance, dedicated to professionals in the carbon market and climate change investment field and focussed on the business opportunities and financial flows driven by society's response to climate change.

The syllabus uniquely focuses on the business opportunities and financial flows driven by society's response to climate change (carbon finance).

The MSc in Carbon Finance will appeal to graduates with significant work experience in business, government or the NGO sector.
