

## Applications of Mathematics (National 5)

Inverness College UHI

### Venues

Inverness Campus

### Content

National 5 Applications of Mathematics is a practical 9 month course designed to extend numerical mathematical skills across a variety of real-life applications. The course places less emphasis on mathematical theory than National 5 Mathematics, and instead focuses on problem solving, risk assessment, and making informed decisions based on mathematical reasoning and the results of computations.

If you require a mathematics qualification at level 5 but are looking for an alternative to National 5 Mathematics, then National 5 Applications of Mathematics may be for you.

### Start Date

August

### Qualification

National 5

### Study Method

Full time

### Course Length

1 year

### Department

Science and Environment

### Entry Requirements

National 4 Mathematics

### SCQF Level

5

### Progression Routes
