

Computing: Software Development (NextGen)

North East Scotland College

Venues

Aberdeen City Campus

Content

Software is everywhere! More and more devices are controlled by software and the industry is constantly evolving as we continue to move towards an era where computers and software dominate our lives.

You will learn programming languages that will prepare you for a career in this ever changing industry, as you focus on design, implementation and testing of your programs.

You will learn how to create responsive data driven websites that implement security measures to prevent cross-site scripting and SQL injection attacks.
