

Natural Sciences (Biology)

Open University in Scotland

Content

In this specialist route available in the BSc (Honours) Natural Sciences, you'll explore diverse aspects of biology from cells to whole organisms, with further options to study subject areas such as human biology, or to explore the role of science in society. You'll develop analytical and scientific literacy skills carrying out practical work and a research project.

This course is accredited by the Society for Natural Sciences and has interim accreditation from the Royal Society of Biology.

Progression Routes

On completion of your biology diploma, you'll be an adaptable graduate with a range of transferable skills that are highly valued in the wider jobs market. You'll have developed analytical, numerical and problem-solving abilities and gained proficiency in data-handling, using computers as well as have team-working and communication skills. Employers may also look for evidence of practical laboratory or fieldwork experience to support the skills gained throughout the diploma.
