

## Natural Sciences (Biology)

Open University in Scotland

### Content

In this specialist route available in the BSc (Honours) Natural Sciences (Q64), you'll explore diverse aspects of biology from cells to whole organisms, with further options to study subject areas such as human biology, or to explore the role of science in society. You'll develop analytical and scientific literacy skills carrying out practical work and a research project.

### Start Date

October, February

### Qualification

Degree

### Study Method

Distance and Flexible learning

### Award Title

BSc Hons

### Course Length

Flexible

### Faculty

General

### Department

Science

### Entry Requirements

No formal entry requirements. Computer and internet access required.

### SCQF Level

8

### SCQF Points

«SCQFPoints»

## Progression Routes

On completion of your biology diploma, you'll be an adaptable graduate with a range of transferable skills that are highly valued in the wider jobs market. You'll have developed analytical, numerical and problem-solving abilities and gained proficiency in data-handling, using computers as well as have team-working and communication skills. Employers may also look for evidence of practical laboratory or fieldwork experience to support the skills gained throughout the diploma.
