Computing and IT and a second subject

Open University in Scotland

Content

Combine computing and IT with a second subject of your choice, business, design, mathematics, psychology, or statistics, and unlock a world of possibilities. You'll gain core IT skills in programming, networking, and software development, while exploring how technology intersects with your chosen field. This dynamic combination builds problem-solving skills, analytical thinking, and digital literacy, equipping you with a versatile skill set for modern careers. It's also an ideal springboard for further study and roles where technology intersects with other disciplines.

Start Date

October, February, April

Qualification

DipHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Computing and IT

Entry Requirements

No formal entry requirements. Computer and internet access required.
