

## Computing and IT and a second subject

Open University in Scotland

### Content

Combine computing and IT with a second subject of your choice, business, design, mathematics, psychology, or statistics, and unlock a world of possibilities. You'll gain core IT skills in programming, networking, and software development, while exploring how technology intersects with your chosen field. This dynamic combination builds problem-solving skills, analytical thinking, and digital literacy, equipping you with a versatile skill set for modern careers. It's also an ideal springboard for further study and roles where technology intersects with other disciplines.

### Start Date

October, February, April

### Qualification

DipHE

### Study Method

Online learning

### Course Length

Flexible

### Faculty

General

### Department

Computing and IT

### Entry Requirements
