Computing and IT and a second subject

Open University in Scotland

Content

This flexible certificate allows you to combine computing and IT with another subject that aligns with your interests, such as business, design, mathematics, psychology, or statistics. You'll gain an essential grounding in computing and IT while developing skills and knowledge in your chosen second area. This combination helps you understand how technology connects with various disciplines, preparing you for roles where digital expertise and subject matter knowledge work hand in hand. It's also the first stage of a diploma or degree, giving you options to continue your studies and shape your future career.

Start Date

October, February, April

Qualification

CertHE

Study Method

Online learning
