Computing and Engineering

Open University in Scotland

Content

This course develops your skills in and understanding of computing and engineering. These are two areas that underpin most aspects of the way we live. Gain a foundation in the basic principles of hardware-based, software-based, or systems-based technologies. Computing skills with basic knowledge of engineering can lead to an array of career opportunities. Apply your knowledge and skills in a broad range of industries and organisations. It also incorporates transferable skills applicable to professional development in the field.

Start Date

October, April

Qualification

CertHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Computing and IT

Entry Requirements

There are no formal entry requirements. Computer and internet access required.

SCQF Level

7
