

## Geology

Open University in Scotland

### Content

Travel to the deep time of Earth's past through fossil finds and mineral mysteries. You'll observe, describe and interpret rocks and landforms, minerals and fossils, to develop your understanding of how our planet works. Try out your new skills by collecting and analysing data in your own geological investigation. Then explore related topics such as planetary, environmental or ecological science to extend your study of geology.

### Start Date

October, February

### Qualification

DipHE

### Study Method

Distance and Flexible learning

### Course Length

Flexible

### Faculty

General

### Department

Environment

### Entry Requirements

Open entry. If you've not studied for some time or are new to the OU, we recommend that you start with a Level 1 course.

Computer and internet access required.

### SCQF Level

10

### Progression Routes

«ProgressionRoutes»

### Combination Courses

«htmlCombinationCourse»

«htmlCombinationUCASCode»

## Address

Drumsheugh Gardens  
Edinburgh  
EH3 7QJ
