Equine Science and Management

Scotland`s Rural College (SRUC)

Venues

Oatridge Campus

Content

This course will equip graduates with the skills and knowledge to make an effective contribution to the equine industry. You will learn with the skills and knowledge to successfully establish and run a range of equine businesses, both in the UK and abroad. It will enable you to continue learning at postgraduate level, or to transfer skills and knowledge into a different future career path.

Graduates will manage the overall care of horses in a range of equine disciplines and settings such as nutritional advisors, yard managers, stud yards, the racing industry, welfare and animal/equine behaviour.

Example Modules: Equine Exercise Physiology; Equine Behaviour and Welfare; Research Skills; International Equine Industry; Equine Business Management; Equine Anatomy and Physiology; Applied Equine Nutrition; Planning Equine Facilities; Equine Health.
