

## Civil Engineering with Architecture (in conjunction with Uni of Glasgow)

Glasgow School of Art

### Venues

Main Campus

### Content

The Mackintosh School of Architecture provides teaching input to students of engineering as part of their degrees in Engineering with Architecture at the University of Glasgow Department of Civil Engineering, enabling access for students to a wide range of creativity, knowledge, and expertise.

Teaching takes place in the studios at the Mackintosh School, working through simulation on set studio design projects, similar to and sometimes in parallel with architecture students, with the encouragement to allow integrated proposals to emerge.

Students present their studio work for review by a group of their peers, staff and invited critics. The studio staff give a formative assessment at the reviews and a summative assessment on the portfolio of work at the end of the session, with continuous feedback from tutorials. It is important to recognise the value of this teaching and learning process, and to positively engage with it.

### Start Date

October

### Qualification

Degree

### Study Method

Full time

### Award Title

BEng Hons

### UCAS Code

H2KC (University of Glasgow)

### Course Length

4 years

### Department

School of Design

## Entry Requirements

2022 entry requirements

Standard entry: 5 Highers at AAAAA (by end S6 with min AABB after S5) including Maths and Engineering Science or Physics.

Widening access entry: 4 Highers at BBBB/AABB including Maths and Engineering Science or Physics. Successful completion of Top-Up or one of the Summer Schools.

## SCQF Level

10
