

Accident Repair Body Principles Diploma Level 5

UHI Perth

Venues

Main Campus

Content

This course is designed so that you can study for three years to achieve a Level 3 in both Vehicle Body Repair and Vehicle Refinishing. This allows students to choose which route they might prefer and provide them with a diploma in both disciplines.

Content:

Year 1

Focuses on safety, minor and basic vehicle repairs, thermal joining processes (welding) removing and refitting non-structural vehicle body panels and vehicle body construction. After completing this year successfully, you will have achieved a Level 5 in vehicle body repair.

Year 2

You will be studying towards Level 5 and 6 vehicle refinishing processes. This will include mixing and matching water based paint systems, repairing paint problems and paint defects, repairing and painting vehicles using various refinishing techniques.

Year 3

You will study towards Level 6 vehicle body repair. This will include using computerised chassis alignment to rectify vehicle chassis deformation, repairing extensively damaged vehicle body panels, resistance and mig brazing welding techniques on modern vehicle construction and mig welding to British standards.

Achievement is by examination and assessments taken during each year.

Start Date

September

Qualification

Other

Study Method

Full time

Course Length

3 years

Department

Engineering, Construction and Technology

Entry Requirements

2 subjects at National 4 or 5, or relevant national qualifications at SCQF Level 4 or 5. Aptitude test.

SCQF Level

5
