

Photography (NPA)

South Lanarkshire College

Content

This course focuses on developing knowledge and understanding in practical photography and will enable you to explore your interest in photography and will prepare you for progression to higher studies and/or employment.

You will be encouraged to develop both creative and technical skills required for a career in photography. Development of your critical thinking skills will be a focus, as will seeking peer/tutor feedback to inform practices. On successful completion you will achieve an NPA in Photography at level 5 together with a range of SQA Photography units at levels 5 and 6 to enable you to progress to the HNC in Photography.
