

Construction Project Management with Industry Placement

Heriot-Watt University

Venues

Edinburgh Campus

Content

To enhance your career prospects and international experience, we are now offering our established and standard one year Construction Project Management Masters over two years through offering a 'with Industry Placement' alternative.

This 'with Industry Placement' option offers a practical experiential element over the traditional one-year degree structure, allowing you to reflect on theory and practice.

This degree is delivered by the Centre of Excellence in Sustainable Building Design, a leading body recognised by the Royal Academy of Engineering. This is one of four such centres established at UK universities that jointly form a national network to demonstrate and exchange best practice in teaching and research for the sustainable built environment.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

2 years

Faculty

School of Energy, Geoscience, Infrastructure and Society

Department

Construction Project Management and Quantity Surveying

Entry Requirements

A good honours degree at the equivalency of a UK first class (or high 2:1) honours degree. Due to the popularity of this programme, we prioritise offers to recent graduates as this is an opportunity to gain work experience. Where extensive work experience has already been acquired, we may offer the one-year MSc programme as an alternative.

SCQF Level

11
