

Energy Transitions and Sustainability

Robert Gordon University

Content

This Energy Institute-accredited Energy Transitions and Sustainability degree provides you with comprehensive knowledge & transferable management skills for addressing the management challenges of sustainable energy sourcing, evaluation and application.

The MSc Energy Transitions and Sustainability course at RGU supports the development of relevant competencies for managing the transition from carbon-intensive to renewable energy sources, which minimise the impact of anthropogenic activities.

The course also offers the opportunity to extend your study by a year to complete a 48-week work placement.

You can exit after stage 1 with PgCert Energy Transitions and Sustainability

You can exit after stage 2 with PgDip Energy Transitions and Sustainability
