

Sustainability Transitions

University of Aberdeen

Venues

Old Aberdeen Campus

Content

This programme is designed to train the future generation of innovators and thinkers who have the passion and ambition to deliver on the UN Sustainable Development Goals and become true sustainability leaders which the world needs.

While societies and economies are embarking on complex transitions to more sustainable practices in order to mitigate climate change and address contemporary environmental challenges, there is a shortage of leaders with appropriate skills and knowledge to take this agenda forward and help make the world a more sustainable place. This programme addresses this gap and develops the sustainability leaders of tomorrow.

Start Date

September, January

Qualification

Postgraduate Master's
