Content

This specialist Masters in medical education is designed by experts in simulation for educators using simulation in their teaching. It will help you analyse everyday teaching and learning opportunities, and will enhance your knowledge and skills as a trainer.

Medical education is at the core of healthcare provision the world over. Ensuring the future workforce is prepared to meet the challenges of modern healthcare means we need experts in medical education to help shape practice.

At the Centre for Medical Education, founded over 40 years ago by Professor Ronald Harden OBE, we help medical educators reach their goals, and ensure they're prepared to train the workforce of the future.

This specialist post graduate certificate will enable you to analyse teaching and learning opportunities while proposing new, enhanced approaches for learner engagement and trainee development through extending your knowledge and skills as a medical educator using simulation as an educational strategy.

You can exit after Stage 1 with PgCert with Medical Education (Simulation)

You can exit after Stage 2 with PgDip with Medical Education (Simulation)

Start Date

September, January, May
