Content

This is a unique programme of study that addresses the growing need for professional education in digital technology applied to design, including its social, cultural and philosophical implications.

Based in a lively studio environment, the programme develops wide skills in digital techniques and a critical framework to appraise the application of these technologies to design.

The programme addresses the needs of practitioners, managers, decision-makers and educators who want to be informed by first-hand knowledge of the technical possibilities of digital technology and an awareness of social, cultural and business contexts.
